

MOHAMMED NAHYAN ASHRAF

AI AND DATA SCIENCE

nahyanashraf3878@gmail.com — [+971 524219053](tel:+971524219053) — [LinkedIn](#) — [Portfolio](#) — [Dubai, UAE](#)

Professional Summary

AI Specialist and Data Scientist with hands-on experience in data analysis, machine learning, and AI-based projects. Strong foundation in Python, R, and SQL, with the ability to solve real-world problems through data-driven solutions. Passionate about applying AI to improve automation, decision making, and operational efficiency.

Professional Skills

- **Programming Languages:** Python, R, C, SQL, Java
- **AI/ML Technologies:** Artificial Intelligence, Machine Learning, Data Science, Deep Learning, Neural Networks, GAN, CNN
- **Data Analysis:** Data Preprocessing, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization
- **Libraries & Frameworks:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, Keras, NLTK
- **Tools & Platforms:** Power BI, Tableau, Jupyter Notebook, Microsoft Excel, R Studio, Visual Studio Code
- **Soft Skills:** Communication, Leadership, Decision Making, Problem Solving, Teamwork

Work History

Unified Mentor

Data Analyst Intern

Kerala, India

June 2025 – September 2025

- Designed and developed machine learning algorithms and AI models for data analysis and automation.
- Implemented AI solutions to enhance system performance and scalability.
- Collaborated with cross-functional teams to integrate AI technologies into existing systems.
- Managed DevOps processes to streamline model deployment and monitoring.
- Conducted research on AI techniques to improve product capabilities.

DataMites

Data Analyst Trainee

Bengaluru, India

October 2025 – March 2026

- Performed Data Cleaning and Preprocessing using Python and SQL.
- Conducted Exploratory Data Analysis using Pandas, NumPy, and Matplotlib.
- Developed Interactive Dashboards using Power BI.
- Wrote Advanced SQL Queries to analyze large datasets.
- Generated Data-Driven Insights to support business decision-making.
- Completed Real-World Analytics Projects including Medical Report Analysis and Customer Segmentation.

Projects

Twitter Sentiment Analysis

- Developed a sentiment analysis model to classify tweets into positive, negative, and neutral categories.
- Applied Natural Language Processing (NLP) techniques for data cleaning, tokenization, and feature extraction.
- **Tools:** Python, NLTK, Matplotlib

AI-Based Image Dehazing System

- Developed a Generative Adversarial Network (GAN) model using generator-discriminator architecture to remove haze from images and enhance clarity.
- Integrated a video dehazing module with OpenCV to process video frames in real-time.
- **Tools:** Python, TensorFlow/PyTorch, Flask, OpenCV

AI Lead Enrichment Bot

- Developed an AI-powered lead enrichment system to automatically collect and enhance business lead information from multiple online sources.
- Built an automated pipeline to enrich leads and prepare structured datasets for marketing and sales teams.
- **Tools:** Python, Web Scraping, APIs, NLP, Automation Tools

Education

APJ Abdul Kalam Technological University

Nov 2021 – May 2025

MES College of Engineering, Kuttippuram

B.Tech in Artificial Intelligence and Data Science

- **Relevant Coursework:** Artificial Intelligence, Machine Learning, Data Science, Data Structures, Deep Learning

NMHSS Thirunavaya

June 2019 – March 2021

Higher Secondary, Computer Science

Languages

- **English:** Read, Write, Speak
- **Arabic:** Read, Write
- **Hindi:** Speak, Read, Write
- **Malayalam:** Read, Write, Speak
